

```
public class TimeStamp {

    private int hour;
    private int minute;
    private int second;

    public TimeStamp(int h, int m, int s){
        hour =h;
        minute = m;
        second = s;

    }

    public void printTime(){
        System.out.println(hour + ":" + minute + ":" + second);
    }

    // Τηρώ τις αναλοίωτες
    public void incrementHour(){

        hour++;
        if(hour == 24)
            hour = 0;
    }

}
```
